

# 1 Link to us

If you find that mod\_perl has helped out your web project and you enjoy coding for mod\_perl, please consider linking back to perl.apache.org. As an Open Source project, we don't have funds for advertising, so we have to rely on the word of the mouth and links from our users to gain recognition.

Image

Tickle your camel with a feather?

Description

**File name:**

*mod\_perl\_logo\_static.gif*

**Dimensions:** 395x85

The official logo, by Michael Demers (mike (at) inteo.com)

The SVG version shouldn't be used for linking -- it's provided as a way to modify the original image if you have other requirements. You can then use a tool like Batik to convert the SVG to another format for the web.

**File name:**

*mike\_walker.gif,*  
*marie\_simpson.gif,*  
*ashley.gif*

**Dimensions:** 468x60

Animated banners contributed by mod\_perl users: Mike Walker, Marie Simpson and Ashley.

**File name:**

*button-64x64.gif*

**Dimensions:** 64x64

Square button based on logo.

**File name:**

*button-110x30.gif,*  
*button-text-64x28.gif*

**Dimensions:** 110x30, 64x28

Buttons, for easy linking, based on the logo.

Alternatives

- Transparent Background (PNG)
- White Background (PNG)
- Black Background (PNG)
- SVG
- Animated SVG

- PNG
- Without black border
- 110x30 button (PNG)
- 64x28 button (PNG)
- 110x30, without black border
- 64x28, without black border

**File name:***apache-mod\_perl.gif***Dimensions:** 90x30mod\_perl button by  
Juergen Specht.**File name:***apache-mod\_perl2.gif***Dimensions:** 127x35mod\_perl button by  
Tyler Rorabaugh.

To link to this website using one of the above banners pr buttons, **download** the image file, then insert the following HTML into your document, replacing *FILENAME* with the correct file name, and *WIDTH* and *HEIGHT* with the correct dimensions :

```
<p>
<a href="http://perl.apache.org/">

</a>
</p>
```

**Note:** *Please* make sure that you download the button/banner locally and use that one, and don't use the complete URL to the graphics hosted on this site; it'll slow your site down and use up our bandwidth.

The main versions of the buttons and logos are provided in the GIF format, as PNG still has a tendency to crash old browsers. If you feel comfortable about using the PNG versions, please go ahead and do so.

Many other logos and buttons have been created for mod\_perl. If you are interested in some of them, you may download an archive containing them all.
